-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-2 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Ono 4596779.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 3-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ono 4596779.

The ONO reference 4596779 discloses all of the recited subject matter as defined within the scope of the claims with the exception of the lip mount disc 46 being made of metal. It is noted that it is old and well known in the art that the use of metal as a material provides strength, and stainless steel provides strength, ease of cleaning and reactive resistance. Since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice,

Art Unit: 1723

In re Leshin, 125 USPQ 416, it is deemed that it would have been obvious to one of ordinary skill in the art to modify the material of the disc 46 of the ONO 4596779 device with a metal material such as stainless steel such that the device is stronger, provides an ease of cleaning and a reactive resistance surface to the materials used in the agitator.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Del ponte 315664, ONO 4355906, Scharf et al 3649465, Stamer 3975239, Mazowski 3622129, Harker 3572651, Hunter 3831850, De Bruyne 4204774, Lukesch 3209387, Wolf 2793012.
